BANGOR DAILY WHIG AND COURIER.

BY SMITH & SAYWARD. WEDNESDAY MAY 12, 1852. VOLUME XVIII.....NUMBER 267.

Bangor Daily Whig and Courier.

Over the Kendall's Mills Message or Four Dollars per year, payable half in advance, and all letters for [illegible] must be accompanied by the amount.

The BANGOR COURIER is published at the office of the Daily Whig & Courier, every Tuesday morning, at Two Dollars per annum in advance, or Two Dollars and Fifty Cents if not paid within six months from the time of subscribing. No subscription for any less period than six months will be received, and no paper discontinued until all arrearages are paid, except at the option of the publishers.

Mrs. V. B. PALMER, [illegible]

All letters or communications intended for publication must be post paid, or they will not be attended to.

AYER'S

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

"And by the [illegible] grow all trees of the orchard, so that every tree whereof the fruit doth not yield good shall be hewn down and cast into the fire, wherefore by their fruits ye shall know them."

[illegible] is for the cure of Coughs, Colds, Consumption, and all affections of the Throat and Lungs, that [illegible] can be found. [illegible] has been widely and favorably known to the public for many years, during which time it has performed many wonderful cures of pulmonary complaints, some of which have seemed almost miraculous. Many of these cases were publicly known in the communities where they occurred, and the details of them have been widely published in the newspapers of the day. As the best evidence of the virtues of this medicine, we refer the reader to the following certificates:

FOR INFLUENZA AND VIOLENT COUGH

Nashville, Tenn., June 2, 1851.

Dear Sir:—I regret to say, that I have been afflicted with a severe cough and influenza, for the last three months, which has resisted the skill of the most eminent physicians in this city. I have been induced to try your CHERRY PECTORAL, and am happy to say that a few doses relieved me from the most distressing symptoms, and restored me to perfect health. I am now using it in my family, and find it the best medicine for children I ever saw. I shall not be without it hereafter.

JANE GLOVER.

FOR SEVERE AND INVETERATE COUGH

Petersburg, Va., Feb. 25, 1851.

Dear Sir:—For three years I have been afflicted with so severe and distressing a cough, that I frequently was confined to my room for weeks together. During the most of this time, I was under the care of one of the most eminent physicians in this city, by whom I was frequently bled, blistered, and salivated, but without receiving any permanent benefit. I was induced to try your CHERRY PECTORAL, and by the use of three bottles was entirely cured. I am now in the enjoyment of perfect health, and can recommend your medicine to my friends and the public with confidence.

JAMES S. ANDREWS.

FROM THE PRESIDENT OF AMHERST COLLEGE

EDWARD HITCHCOCK, M. D., LL. D.

J. C. AYER, M. D.

Dear Sir:—I have frequently prescribed your CHERRY PECTORAL in my own family, and in my practice, and have found it an excellent remedy for the diseases of the throat and lungs for which it is recommended.

EDWARD HITCHCOCK

proved that the President can turn the balance in a divided Senate, by the dazzling display of shining appointments and lucrative jobs. In the Presidential election the nine States of New York, Pennsylvania, Ohio, Virginia, Indiana, Massachusetts, Kentucky, Tennessee, and Illinois, give 168 electoral votes, while the remaining twenty-two States give but 127. The former have but 18 Senators, the latter 44. The question of relative power between great and small States has, however lost its interest in the vast extension of the country and the consequent fact that great and small States having the same interests are thrown together, and their act together.

A new era has however arrived, in the year 1850. It is that in which Revolutionary States, as well as Revolutionary Men have disappeared from the platform of power. The chariot of Empire has been driven to the west, and the vast mass of miscellaneous beings who impel it are like Phaëton driving the chariot of the sun, without their father's skill, that we have reason to hope to be attended with a far better fate than that which Fable attributes to Phaëton.—(Cincinnati Gaz.

Whig and Courier.

John S. Sayward, Editor.

WEDNESDAY, MAY 12, 1852.

Joshua Holbrook—His plans.

We have before us a small pamphlet, setting forth the fact that Mr. Holbrook of Washington, that whom a more intelligent, common sense active and efficient man in the cause of popular education, cannot be found in our whole country, proposes to visit various sections of the United States, and will direct a portion of his attention to the collection of minerals for schools, families and individuals. On the payment of five dollars, the contributor becomes entitled to a share of the collections of the minerals obtained. Parents, teachers, and others, can aid the plan by encouraging their children and pupils in collecting minerals and other curiosities within their reach.

It may well be said that the plan is simple, economical, powerful. By a mere trifle, each person concerned, may be aided by all the rest in procuring collections, rich, beautiful and useful; such collections increased without limit; the resources of the country and the world developed and applied to useful objects, especially Agriculture and Mechanism; the character of schools elevated, intelligence generally diffused, industrial exhibitions aided, instructive amusements provided, morals protected, rowdyism checked, and international policy rendered more enlightened and pacific—all benefitted—none injured.

Mr. Holbrook also proposes, establishing in the vicinity of Washington, an Institution for Practical Science, Productive Industry and Christian Morals. It is stated, that shops and tools will be provided for mechanical operations, especially for making scientific instruments of the largest and best assortment, fitted for various government operations, but more especially for practical instruction in schools and families.

Cabinets of Agricultural Geology, for which large collections of minerals are already made, will be furnished by the Institution without delay. Such cabinets—new era important instruments of elementary instruction—have, at this time, a special importance, from the prominent attention given to Geology and Agriculture in the Census Report, soon to be distributed thro' our entire country. By specimens, labelled and described, also widely distributed, minerals, rocks, and soils, named in the report, can be seen and understood—any person aided in making collections for himself, and every farmer made acquainted with the character and capabilities of his own field.

Science, greatly extended, will be pursued thoroughly, because practically and experimentally. Apparatus, made by pupils in the workshops, will be used by them for experiments in the lecture room. By varied and combined exercises in the garden, shop, study, and lecture room, special, and constant endeavors will be made to render labor attractive, enlightened and respectable; and thus lead pupils to fix upon themselves habits of, productive industry and with it a taste for science, the arts, and refined pleasures generally; thus providing the surest protection against extravagance, dissipation, and ruin.

☞ We stated on Monday that a lady had been robbed on board the steamer Eastern State, such being her declaration to our informant. We now learn that the lady referred to had every attention paid to her on board the boat; that her daughter was with her; that she was in the "Ladies" Cabin all the time, with very few persons with her; and that she did not make known her loss until the next day. Capt. Flowers, in the generosity of his warm heart, on hearing of the loss, immediately offered to pay her the money, if she felt satisfied that the lost the money on board the boat. She was not sure of this and declined taking it.

We are glad of the opportunity of making this explanation as it serves to confirm our previous opinion of the attentions, kindness and generosity of Capt. Flowers, and the various officers under his charge.

☞ The Nicaraguan affairs, long pending here are practically and substantially settled; and upon that settlement, Mr. Webster left the Department on a visit home, and Mr. Marcoleta, the Nicaraguan Minister, at the same time departed. There are now no pending "questions of importance in regard to our foreign diplomacy, except perhaps in regard to the acquisition by the United States of the right of way across the Isthmus of Tehuantepec, and this will be acceded to by Mexico after a while.

On Friday the second floor and ceiling in Riddle's Carriage Mart, Union street, Boston, gave way and fell upon a large number of fine and elegant carriages, which were upon the first floor, badly breaking and otherwise damaging them. The loss is quite large.

THE HOUSATONIC OR SIX THOUSAND MILES. New York: Charles Scribner.—1852.

Messrs. E. P. Dutton & Co. have laid upon our table a small neat volume with the above title. It gives in a convenient, and agreeable form a fine sketch of the life of the scientific and highly gifted man who was one of the brightest lights in the age he lived in.

The work is dramatic in the most strongly style of the interesting publisher, which makes little book read like a novel. It is unfailing to do well, read, and profitable.

☞ The Bangor Jeffersonian devotes considerable space to the defence of the Governor, in appointing an editor Commissioner of Schools for the county. We certainly expected as much as the editor of that paper could not probably think of a more suitable man to fill the office. The editor is not one we care very much to pursue after having stated our objections to the appointment, as one seemingly so purely political, and especially as the editor leads in his own behalf that the service is not to be performed until the winter, after the presidential election, and when he will probably not be called off.

☞ In the city of New York there are 6496 places where liquor is sold, 5190 of these are licensed, and 1306 are unlicensed. This gives a drinking place to less than every six dwellings, there being 37,350 dwellings in that city. The large sum of some is, but not a sufficient number of persons to sell liquor, and induce the law against the others. The practical operation however, is that the more there is, the more there are who will sell without license.

☞ On Saturday a fire broke out in some wooden buildings on Catherine street, New York, occupied by several families, which were destroyed, and the wife and three children of Philip Colgan, policeman, and a woman named Margaret Hogan, were burned to death. The children of Mr. Colgan, who were burned, were two daughters, aged 22 and 9 years, and a son aged 7 years. The loss of property by the fire was not large.

☞ We visited the Messrs. Paulk & Tuke, the owners of two flats on Broadway, are doing good service in transplanting, with great care, a large number of shade trees, and their lots. These trees are well taken up and are brought from Exeter. One such tree is a pitch tree of the feeble, imagined kind, often brought into market.

☞ In speaking of the present list of several of the worthiest editors and authors of France, the N. Y. Tribune well says that, "under the Orleans rule the best men took to the pen as the last resource of freedom, and did their work well." There was among the hated dicts of the former period, as truth is according to the latter.

☞ Where is Rebecca to Hev. Mr. Tilton for the lady's escape for the use of our reading room, of the "Daily Zion's Herald," containing reports of the proceedings of the General Conference of the Methodist Episcopal Church, now in session in Boston.

☞ The 6 or four acres of pine trees and belonging to A. Lowell, at Squirrel Neck, Portsmouth, N. H., were burnt 1 over last week. About 100 acres of wood land, three miles east of Fairhaven village was burnt over last week.

☞ The Rhode Island General Assembly adjourned on Friday evening last, after a session of four days. The principal act of this session was the passage of the Liquor Law, which goes into effect on the third Monday in July.

☞ The name of the post office at Goose River, Camden, has been changed to Rockport. A new post office has been established at South Hampden and Chas. P. Field appointed Postmaster.

☞ Rev. Dr. Butler at Washington on Sunday last, administered the communion to Mr. Clay. It is the opinion of his physicians that his decline will be so gradual that the moment of final departure will be scarcely perceptible.

☞ The clipper ship North Star, sailed from New York for San Francisco on Friday, taking out 162 passengers. This is the greatest number of passengers that have taken the Horn route at one time during the past 18 months.

☞ A letter from Richmond says Gen. Scott's lecture is expected next week. Mr. Wise who has just arrived here from Washington, is reported to have announced that he was permitted to change at its contents.

☞ Col. Benton, who is now a candidate for Congress in the St. Louis district, remarks an interesting in the present canvass, as he goes to a speech each in the Senate on 1849, to show that he was then in favor of protection.

☞ A Block of Granite, weighing 40 tons, was burning in Brooklyn, May 9th. The servants of several tenements had to be taken from the wind fire with the aid of ladders.

☞ The South Carolina papers state that the Governor of that state will appoint Gen. Col. E. W. Pickens, or Hon. W. F. Colcock, to fill the place of Hon. R. Barnwell Rhett, resigned.

☞ Sixty-three have been admitted into the Indiana Insane Hospital, within the past month, whose insanity has been produced by the spirit rappings.

☞ Jacob Foss, of Charlestown, has presented to Kossuth's purse containing $440 in gold also $100 to the Charlestown Committee who received him.

☞ We give our thanks to Hon. Eben Newton of Ohio, for a copy of his speech delivered in the House of Representatives, in favor of the establishment of an agricultural bureau.

☞ We return our thanks to Mr. Cushing, Clerk of the Governor, for papers in advance of the mail. Also Mr. S. S. Lowell, Steward of the Governor, for like favors.

☞ The ladies of Columbus, Ohio, have presented to the directors of the Mansfield and Sandusky railroad company, Theresa public spirit worthy of emulation.

☞ It is stated that time how for those who propose trying the experiment of nursing the Curculio, with Cotton Batting, to bind it upon their plum trees.

☞ Flowers were paid to-morrow Mr. Mangum in the U. S. Corporation, but entirely without effect.

☞ Rufus L. Hosking has resigned his Midshipship on account of ill health.

☞ Two cases of cholera are reported in Cincinnati, one fatal.

THE CHINESE IN CALIFORNIA.—The readiness with which the Mongolian race accommodates itself to Saxon and Celt is amusingly illustrated by the Chinese in California—of whom there are now three, we are assured, no fewer than three thousand. These Chinese are among the quietest, most industrious, and ingenious of the heterogeneous population of the new State. They are never seen in, or getting up a disturbance, are wonderfully good natured, properly patient, and evince a disposition to obey the commands and ordinances of the civil law, which some other races there, claiming to be far more enlightened and civilized, might imitate with credit. They are said to be expert in mechanics, and the most of them prefer earning a livelihood in such occupations as the towns and cities, as afford a profitable exercise of that ingenuity for which they are proverbial at home. When they get a hundred dollars or more about, laid by, they go back to China, and think they have got a fortune. Living there is cheap, and a little money goes a great way in procuring the necessaries of life. A late San Francisco paper gives us an amusing account of the manner in which this singular people while away what leisure time they have, not devoted to industrial pursuits. We quote from the Alta California:

"The politicated gentry, the Chinese, seem to be holding a protracted meeting, 'amidst which they have had apparently brave feasting. Their general habit of abstemiousness has been made rather a subject of complaint, by those who think they ought to spend for the good of the country a fair portion of their earnings; but on the present occasion they would appear determined to redeem themselves from such reproach. Great pots of rice, carcasses of hogs, sheep and goats flanked by a liberal supply of 'chicken fixins,' have formed the staples of their feasts, to which also were added a due proportion of preserves and sweet cakes. These solids were probably diluted by copious draughts of tea, for thereby did not appear any symptoms of a stronger infusion. Their festivities of course have been enlivened by music; and the performers, seated on the top of a porch, worked away in a style that the experts, no doubt, entirely appreciated. Their own countenances expressed unbounded satisfaction; and a crowd of *bonâ fides*, in the street below, demanded frequent encores. Not clothing in the manner born, four Celestials did not reach any very extraordinary height; but on the contrary, after a pain attempt to comprehend their melody, we came to the conclusion that, like Italian 'bravuras,' it was past our understanding. The instruments consisted of a gong, a triangle, a sort of castanets, and two drums. These latter were similar in shape, but of different material; one being of brass and the other of wood, over which was stretched a parchment, skin our style. Instead, however, of being a long cylinder, they were not more than six inches deep, and, if it appeared with open ends. The first produced a dull, brazen clang, and the wooden one sounded like the rattling of a woodpecker on a hollow log. The sounds of the different instruments jostled and tumbled over each other without any ceremony, but the effect was very fine, at least as far as the Chinese were concerned, for they interpolated in the melody was charming their very souls out of them."

Quite a large number of Chinese have settled down in California, with the intention of permanently residing there. They are sharp traders "but in the main honest, and we have yet to hear that the Vigilance Committee have been called upon to punish one of them. They are said to look upon themselves, as altogether a superior set of mortals to those around them, while their tastes as a gastronomic sense, are said to partake largely of the aristocratic and educated. They have an incurable fondness for rice, in their own country, but their associations in California are said to have led to a very general renunciation of their tastes, in that respect.

On the whole, from what we learn of the Chinese in California, we are rather disposed to believe that there is worse material for American citizenship than that is imported from Canton, Shanghae, Fekin, etc. They don't touch politics, yet still it would be no wonder ere the next Presidential Election is over, to see the Chinese taking sides in the contest. An old Hunker, or a Barnburner Chinaman, would be a spectacle that would be likely to make the "old fogies" feel young again.

New York Express.

CONGRESS.

WASHINGTON, May 10.

Mr. Cullom asked leave to introduce the following resolution:

That the Committee on Public buildings and grounds be instructed to inquire into the expediency of purchasing for the public the estate of Mount Vernon, the late residence of Gen. Washington and the resting place of his house, and also at what time the same can be purchased, and as to what, if any use can be made of it, and that they report by bill or otherwise.

Objections to this introduction were made in several directions. Mr. McCullon moved that the House go into Committee on the Whole on the Homestead bill.

NEW YORK, May 10.

The friends of Mr. Fillmore held a meeting to-night at Chinese Assembly rooms, Daniel Lord, Esq., in the chair, assisted by two hundred Vice Presidents, and fifty Secretaries. An address and resolutions were read and adopted unanimously. Letters were read from Senators Clayton, Brooke, of Mississippi, Strohead of North Carolina, and others, and the meeting was addressed by Reuben Lord, Marshall, Gentry and Brooks.—The hall was very full, and there was a dense crowd outside who were addressed by several speakers.

Mexican News.

NEW YORK, May 8.

Letters from Camargo, Mexico, says that Carajal has sold to an American Company for $200,000, his landsin near Camargo, Reynosa Acte and Guerrero.

The Monitour says that Santa Annazias written a letter to his partisans, declaring that he will furnish them with no more funds for revolutionary purposes; that he has already sent them $150,000, which they have squandered; that they have basely and villainously deceived him, and that they are a set of miserable cowards, terrified by the bare mention of Arista's name!

NEW YORK, May 10.

Anniversary week opened yesterday. Rev. Joel Parker delivered a sermon in the evening in behalf of the New York Bible Society, and Rev. Mr. Ramsey of Philadelphia, a sermon in aid of the American Society for ameliorating the condition of the Jews.

AUGUSTA, May 11.

Hon. Richard K. Rice, Hon. J. W. Hathaway, and John Appleton, Esq., appointed by the Governor as Judges under the new law, were confirmed at this morning's session of the council.—Tel. to Mercury.

PHILADELPHIA, May 9.

The State Treasurer of Pennsylvania has officially reported a list of $50 public defaulters, who have in the aggregate robbed that State of over three millions of dollars.

THE EXPEDITION TO NORWAY.—Private letters from Norwich state that Colonel Rawlinson, who is now conducting the excavations abandoned by Mr. Layard, has opened out the entire palace of sculpture of Ninus and Queen of Assyria. There they lie, as they are said, in huge stone sarcophagi, with sculptures like, just as they were deposited more than 3000 years ago.

Matthew St. Clair Clarke, formerly clerk of the U. S. House of Representatives, died in Washington city on Thursday last aged 80 years.

THE TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

BOSTON, May 11.

The Vermont Central Railroad depot at Northfield was destroyed by fire last night. The books and papers were all saved. The depot was fully insured.

NEW YORK, May 11.

The Fillmore meeting adjourned harmoniously; about the same number was present at the Webster demonstration. The best men thus far, have carried 11 out of 18 Congressional districts in New York.

BUFFALO, May 11.

The Eagle Street Theatre in this city was destroyed by fire this evening. Loss on building $20,000.

Lola Monter danced here last night to a crowded house. She had refused to dance a second night, and took away her wardrobe and thus saved it.

CHAMBERS' POCKET MISCELLANY.

Messrs. Gould & Lincoln well known enterprising and able publishers in Boston have just issued the first volume of this popular work, they having made arrangements for early sheets of the Edinborough edition, in monthly volumes, each being complete in itself.

This work is intended to furnish to the eager hurrying men and women of the times agreeable reading matter, which they can take up at any moment and dispatch with the passing hour, at home or abroad. There will be found much amusement in these volumes, much that is truly interesting and a fair proportion that is instructive.

The first volume may be found on the shelves of Messrs. Dyer & Co., and of William Lowis.

INDIAN TREATY IN MINNESOTA. The treaty negotiated with the Sioux tribe of Indians last summer, securing to Minnesota a large extent of fertile territory, was awaiting ratification by the Senate. H. R. Luke Lea, Commissioner of Indian affairs, and Gov. Ramsey, of Minnesota, were engaged in the negotiation, as special commissioners, and the result of their labors is generally conceded to be pregnant with benefits to the country. It secures to our government an immense tract, considered by those familiar with the region to comprise the most beautiful farming and lumbering lands in the Northwest; and at a cost lower, we believe, than has attended purchases gained under former treaties. The land ceded by the Sioux is estimated at 27,633,540 acres, ranging along the Northern boundary of Iowa, extending from the Mississippi nearly to the Missouri, and northward to the St. Peter's river. The nominal price is ten cents per acre; but the payments to be made in the form of annuities for fifty years, at five per cent on that amount, thus in reality reducing the expenditure to about two cents an acre.—Republic.

THE ABBE OR CHEVALIER HOLZEMAN.—Washington, May 8.—It is understood that the representative of Mr. Holzeman will be communicated to Congress. It will be found to contain a courteous farewell to the President, complimenting him upon the personal relations always existing between them; but it intimates that the conduct of the diplomatic relations of the United States by the Secretary of State, especially as regards Austria, and himself as her high representative, had not been of a character to commend itself to his Imperial Majesty, and was wanting in the attributes of neutrality and amity which had always heretofore marked the actions of the two governments.

COAST OF AFRICA.—A letter from Cape Coast Castle dated March 1st, says: "The blockade of the Leeward Coast has been raised in five or six places, in consequence of some kind of treaty having been signed, but affairs are in a very unsettled state still. The town of Whydah has been recently burnt, together with Hutton's factory. After the fire, there were discovered in the ruins of the town, the charred remains of 100 slaves who had been unable to escape, owing to them being chained together by the neck. It is supposed they were collected together ready for shipping. The town of Dahomey, where the King of the country resides, is also reported to have been burnt."

A CHOICE NEIGHBORHOOD.—"I do not recollect," says Dr. Hopkins, "that I ever heard a profane word from any of my youthful companions for the first fourteen years of my life." What a neighborhood was that! No swearing among the boys; no swearing among the men. Where did Dr. Hopkins live? It was in the town of Waterbury, Connecticut. I wonder if it can be part of such a neighborhood now? I can only there tell us. What a delightful spot it must be where God's name is never taken in vain; we may be sure that there his name is honored and his laws respected. Would that there were many such neighborhoods over the land.—Child's Paper.

CULTIVATE RAISED IN EUROPE.—At a meeting of the British Entomological Society, held at London, on the 4th ult., we notice that the President, J. O. Westwood, Esq., presented specimens of the so called new cochineal insect, "*coccus Fabæ*," which it appears feeds on the common bean, and yields a most brilliant color, in all respects resembling the cochineal of Central America. Mr. W. stated that the cultivation of the insect had been commenced in a large scale in the South of France, where it would supply a new and profitable opening to the labor of the peasantry.

VALUABLE FLOCK OF SHEEP.—One hundred and sixty sheep, which Mr. Jewett of Addison Co., Vt., has just imported from Spain, passed through Salem, Washington county, N. Y., on Wednesday last, on board the freight train in charge of a Spanish shepherd. Mr. Jewett paid $14,000 for the flock. There was one buck which cost $900, and would shear 24lbs of wool.

BOSTON MARKET.

May 10.

Flour and Grain—The market is firm for Flour with a light stock and moderate receipts. Sales of common and fancy brands Western at $4 50@4 75 and extra Genesee $5 00@5 per bbl. Corn is selling at 61@66c for white and yellow. Oats are in fair demand, and Northern bring 46@48c per bush.

Provisions—Steady, with sales of the different kinds to the trade, and prices remain without material change.

☞ To any thinking mind, that shall do for a couple of days, perusal of any one of the following certificates, which have been signed for the benefit of the first Druggists in this country, is by far more than the public deserve at the hands of those who are ill. Many are ill because they are ignorant of the simplest elementary principles of health, and thus in their ignorance they are induced to purchase and take Patent Medicines, which, instead of curing them, only make them worse. Now, if they would but read, and think for themselves, they would find that Ayer's Cherry Pectoral, having been proved by the most eminent Chemists, by Physicians, and by the people themselves, to be the best remedy for Coughs, Colds, Consumption, and all diseases of the Throat, Lungs, and Chest, we would from our knowledge of its virtues, and of the unbounded confidence which the community have in it, recommend them to use it, and thus be saved from much suffering. Nevertheless, we would not have you take our word for it, but we would refer you to the following evidence of its value, from those who have used it, and who are known to you, and whose statements you can rely upon. Read what your neighbors say, and then if you will do so, you will be convinced that it will do for you what it has done for others.

A CARD.

This subscribers beg leave to express to Jordan, their gratitude for the having provided a "thanksgiving resting place" for tired pedestrians, where they do so love to call in this city, and as it is indispensably necessary that persons should be calm and quiet before having their faces reflected on the daguerreotype plate, the subscribers feel that a special favor has been conferred on their customers, thousands of whom pass this route, not having the sight of the place where they get their fine pictures.

So Ladies and Gentlemen when you get seated please call at Burnham's Rooms, Main Street, and we will give you a call and will pass you with pleasure.

J. U. P. & A. M. BURNHAM.

Bangor, May 11. 1852. dd1w

A CARD.

MRS. WINSLOW TO THE LADIES.

Mrs. Winslow, an old and experienced nurse and Female Physician, would call the attention of the Ladies to her Soothing Syrup for Children, which will immediately relieve them from pain, allay all spasmodic action, soften the gums, reduce inflammation and is sure to regulate the Bowels. Depend upon it Mothers, it will give rest to yourselves and relief and health to your children.

Price 25 cents per bottle.

We have sold very large quantities of Mrs. Winslow's Soothing Syrup during the past six years, several thousand the last year. We believe it the best medicine in the world for Children teething or for the cure of Dysentery and Diarrhœa in Children whether from teething or any other cause. It gives universal satisfaction—never heard a complaint from any one using it—never sold a medicine so universally successful in relieving pain and affecting cures—relief is absolutely sure.

CURTIS & PERKINS,
Druggists, Bangor, Me

Sold by Agents in nearly every town in the State.

Thousands have been cured, who may not yet by the

Cramp and Pain Killer!

The world is astonished at the wonderful cures performed by the CRAMP AND PAIN KILLER, prepared by CURTIS & PERKINS. Its equal has never been known for removing pain in all cases, for the cure of spinal complaints, cramp in the limbs and stomach, rheumatism in all its forms, sudden colds, sore throat, and fever. Briefly, it is decidedly the best remedy in the world.—Evidence of the most wonderful cures ever performed by any medicine are on circulars in the hands of Agents—you may be positively sure of relief if you use it.

N. B.—We have never sold for CURTIS & PERKINS' Cramp and Pain Killer. All other remedies are base imitations, and will deceive the purchaser. Price 12½, 25, 37½ cts per bottle, according to size. Sold by Agents in nearly every town in the State.

April 12, 1852. 3mos

ANOTHER SCIENTIFIC WONDER! Instrument to Daguerreotype—Mr. J. C. H. THOMAS'S PATENT Daguerreotype Apparatus, which will insure a perfect likeness in this city, and as it is indispensably necessary that persons should be calm and quiet before having their faces reflected on the daguerreotype plate, the subscribers feel that a special favor has been conferred on their customers, thousands of whom pass this route, not having the sight of the place where they get their fine pictures.

So Ladies and Gentlemen when you get seated please call at Burnham's Rooms, Main Street, and we will give you a call and will pass you with pleasure.

J. U. P. & A. M. BURNHAM.

Bangor, May 11. 1852. dd1w

A CARD.

MRS. WINSLOW TO THE LADIES.

Mrs. Winslow, an old and experienced nurse and Female Physician, would call the attention of the Ladies to her Soothing Syrup for Children, which will immediately relieve them from pain, allay all spasmodic action, soften the gums, reduce inflammation and is sure to regulate the Bowels. Depend upon it Mothers, it will give rest to yourselves and relief and health to your children.

Price 25 cents per bottle.

We have sold very large quantities of Mrs. Winslow's Soothing Syrup during the past six years, several thousand the last year. We believe it the best medicine in the world for Children teething or for the cure of Dysentery and Diarrhœa in Children whether from teething or any other cause. It gives universal satisfaction—never heard a complaint from any one using it—never sold a medicine so universally successful in relieving pain and affecting cures—relief is absolutely sure.

CURTIS & PERKINS,
Druggists, Bangor, Me

Sold by Agents in nearly every town in the State.

Thousands have been cured, who may not yet by the

Cramp and Pain Killer!

Bangor Air-Tight COOKING STOVE

THE best Cook Stove ever introduced to this or any other people.

Having received the sole agency for this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for the eastern market, by those experienced and expert Stove manufacturers' Messrs. Eastes & Whittier, who have appreciated the wants of the public and have succeeded in producing a Stove, which has received the fullest confidence in its merits, and the opportunity over every other Cooking apparatus ever introduced. Its conveniences for Baking, Broiling, Frying, &c, are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. Every important feature is, it has very few moving castings, and being manufactured in the city, can at all times be repaired. If ever necessary, at a trifling expense without subjecting the castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and has not given entire satisfaction may be returned and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other pattern cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.

All or any of which will be sold at exceedingly low prices.

Elevated Oven Stoves—Hampden 4 Boiler and two Oven—Boston two oven Stove, Forrest Queen, &c—and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove or Cooking Stove with any notice, can be found at the Central Stove and Furnace Depot, No 13, 17, and 19 Broad st.
